

Jim Zamos Memorial Hyper Humus Nature Walk - Sunday, April 28, 2019

The Sussex County Bird Club has held a bird walk at Hyper Humus on the last Sunday of April since 1975, and Jim, who explored, played, and birded in this area from his childhood throughout his entire life, was usually the trip leader. Regardless of who led, or showed up, or weather conditions, Jim went on this walk. He kept a record of sightings for this trip over the last four decades, and was always seeking to add another bird to the "Hyper Humus Trip List". In April 2014, Jim led his last trip at Hyper Humus and was able to add the Eastern Screech Owl to the list. Last year, shortly after discussing Jim's "let's add a bird" mantra, we were gifted with a trip list addition of Swallow-tailed Kite! What can we add this year...?

Please join us as we continue this annual club trip in his memory! Meet at the Warbasse Junction parking lot at 8:30 am and plan to spend a few hours traversing Jim's favorite haunt in search of birds, old and new. Dress for the weather and wear appropriate walking shoes/boots, bring water and snacks if you like, and of course bring binoculars and a scope if you have one. For more information, contact trip leader Marianne Ofenloch at sussexbirds@centurylink.net.
